TREATY NOT READY BEFORE TUESDAY

President Roosevelt Will Not Witness the Signing.

M. Witte is to Be Made a Count by the Czar of Russia For His Services.

WORKING HARD ON THE TREATY

Portsmouth, Aug. 31.—More time will be required to draw a rough draft of the peace treaty than at first expected, and it is announced this morning that the draft may not be ready to submit to the envoys before Tuesday.

President Not to Witness Signing.

Oyster Bay, Aug. 31.—Secretary Loeb announced today that President Roosevelt would not go to Portsmouth or anywhere else to witness the signing of the peace treaty. It will be signed wherever the envoys select and it will not be necessary for the president to attend the ceremony.

Russia in Bad Straits.

St. Petersburg, Aug. 31.—One of the most prominent officials of Russia said to your correspondent today: "Russia needs every penny she can get to restore the financial balance. The outside world has no idea how terrible the strain of the war has been upon the Russian exchequer. Arriving disorders are assuming enormous proportions, and the starvation of millions of peasants is imminent. Russia has spent very large sums in relief work to prevent an uprising during the winter."

Russia Will Travel Again.

St. Petersburg, Aug. 31.—A sensation has been caused by an article which appeared in the Novoye Vremya today, written by Editor M. Kouvorin, in which he declares that Russia accepted the peace terms offered by Japan only as a temporary measure. Russia will then "travel again," he says.

Last of the War.

St. Petersburg, Aug. 31.—A dispatch from Lidzlapudze contains the details of what will probably be the last engagement of the war. This encounter took place on August 28, and resulted in an advantage to the Russians who took 130 prisoners. A number of Japanese were killed. The Russian losses were eight killed. A remnant of the Japanese retired bearing their wounded.

Cabled Congratulations.

Christiana, Norway, Aug. 31.—The Nobel Peace prize committee cabled President Roosevelt congratulations on his work for peace of the world and for humanity.

May Get Nobel Peace Prize.

Carlsbad, Aug. 31.—The Associated Press has the highest authority for stating that there is a strong probability that President Roosevelt will receive the Nobel Peace Prize next year.

More Details of Terms.

Portsmouth, N. H., Aug. 31.—The Associated Press is able to give additional and interesting, as well as important details in regard to conditions of peace.

The most important of all is the fact that the formal recognition of Japan's possession of the Chinese Eastern railroad below Kuenchengtse involves the payment by Russia to China of about \$75,000,000. This is the Chinese interest in the road and for it China must be remunerated. The question of ultimate possession of the road is a matter to be settled between Japan and China. Japan can keep the road or surrender it to China, demanding in return, the money paid by Russia to China. If she elects the latter course Japan will, therefore, obtain an indirect "spoils of war" from Russia, the above mentioned sum, in addition to reimbursement for the cost of maintaining the Russian prisoners.

Another important provision is that Japan's succession to Port Arthur and Liao Tung, leases which Russia surrenders, is conditional upon China's assent.

It is to be "Count" Witte. St. Petersburg, Aug. 31.—It is stated that the czar intends to reward Witte, the ranking Russian plenipotentiary at the Portsmouth peace conference for his services in bringing the war to a termination, by conferring the title of count upon him.

Emperors Must Sign.

Portsmouth, Aug. 31.—The fact is

just discovered that neither the czar of Russia nor the emperor of Japan has yet approved the peace agreement. This official sanction must be obtained before the protocol of the last meeting is signed, or final action taken upon the treaty being drafted.

Interned Ships Go Back to Russia.

New York, Aug. 31.—The interned warships for which Japan has waived her claim and which will be returned to Russia are:

The battleship Czarevitch, at Tsing tau. The cruiser Askold, the gunboat Mandjur and the torpedo boat destroyer Grozovol, at Shanghai. The cruiser Diapa, at Saigon, French Indo-China. The cruisers Aurora, Oleg and Jemtechug, at Manila. The cruiser Lena, at Mare Island, San Francisco Bay.

The Czar Commends.

Oyster Bay, Aug. 31.—President Roosevelt today received a telegram from the czar warmly commending him for his action in bringing about peace. "My country will greatly recognize the Great Part you have played in the Portsmouth peace conference," said the czar.

PARLOR CAR PORTER

INSTANTLY KILLS ONE AND BADLY WOUNDS ANOTHER.

Drunken Men Attempted to Have Trouble on Henderson Route Train.

Louisville, Ky., Aug. 31.—Alfred Ray was instantly killed and William Blain is seriously injured as a result of a fight on train No. 44, of the Henderson route, at 6:30 o'clock last night.

John Heulbank, colored, porter of the parlor car, is held in the county jail at Hardinsburg charged with the shooting.

It is said that Ray and Blain with five other men, were under the influence of liquor. They boarded the train at Hawesville, Ky., intending to go to their homes in Stephensport. They started trouble at once, and finally attacked the negro porter with knives, when the shooting resulted.

GOT WRONG MEDICINE.

And W. C. Boland Is Dead and His Mother Will Die.

Prairie Du Chien, Wis., Aug. 31. Will C. Boland, aged 13, of Senia, is dead, and his mother is in awful agony as a result of administration of dose of corrosive sublimate instead of cream of tartar by mistake.

Collects \$2,000 From Equitable. Mr. F. G. Rudolph, administrator of the late H. A. Rose, this morning collected \$2,000 from the Equitable company, the first life insurance collected out of the entire \$23,000.

GUNBOAT PADUCAH FINISHES TRIAL TRIP—IS A FAST VESSEL.

New York, N. Y., Aug. 31.—Having finished her trial trip, in which every requirement was made, the gunboat Paducah reached the Brooklyn navy yard this afternoon.

She will remain there until fitted out and provisioned for regular service.

The commanding officer and crew are to be assigned at once. The Paducah will, it appears, be swifter than her sister, The Dubuque, and is one of the swiftest gunboats of the new type in the navy, if not the very swiftest.

The Dubuque is to go to Dubuque, Iowa, in the fall, and may come to Paducah, giving Paducah people a chance to see a counterpart of the vessel bearing the name of their city.

SEVERAL SHOCKS.

Felt at Portsmouth, Which Is Getting a Little of Everything.

Portsmouth, Aug. 31.—A series of earthquake shocks, the most severe ever experienced in this section, were felt here yesterday afternoon. Buildings trembled perceptibly, dishes were shaken from shelves and in many cases people rushed in terror from their houses into the street. There were three distinct shocks, and in each instance tremor was accompanied by sound like distant explosion. Shocks were felt along the entire New Hampshire coast line. In the business section of the city shoppers rushed out into the streets, believing the buildings were about to collapse. Each of the shocks continued several seconds.

THE ENCAMPMENT NEARING A CLOSE

General Reports Being Made up by Officers Today.

Rivalry Between Henderson and Hopkinsville in Furnishing Orderlies.

NOTES OF THIRD REGIMENT

The Third regiment will break camp Saturday night and depart on a special train at 10 o'clock.

The general officers have been very busy all day working on the general reports of the camp to be prepared incidental to the winding up of the camp business.

Capt. Ed Young, Co. E, Madisonville, is officer of the day; Lieut. F. H. Merriam, Co. D, officer of the guard. The latter was also instructor of the guard at guard mount this morning.

Co. E, of Madisonville, is at the rifle range today.

The regimental officers are at the revolver range this afternoon. Tomorrow there will be a shooting match at the rifle range, the best shots in the camp being the contestants. They will shoot five shots at 500 yards range.

Col. Ayres paid off the staff officers yesterday, the payroll amounting to \$3,907.49.

Co. D, of Hopkinsville and Co. B, of Henderson, have had a good deal of rivalry for the appointments of the orderlies. Co. D has had six men to serve as orderlies, one a day average, and Co. B four. The orderlies are selected each day from the best drilled and appearing boys and it is quite an honor for the privates, Robert Philley, and Private Merritt, a former Paducah boy, are orderlies today. Merritt has served twice.

Col. A. D. Martin, president of the Frankfort's most prominent citizens and business men. His position as head of his company pays him a salary of \$25,000 a year.

Gaines says are no more than intoxicants, and was warned if he persisted in it, a guard would be thrown around the place and no soldiers permitted to patronize it.

Dress parade continues to attract big crowds.

Private W. Warren, of company B, Henderson, was taken home this morning as he was suffering from organic heart trouble. He was expected to die at any minute last night.

CAPT. LUCIEN YOUNG.

Must Stand a Court Martial for Bennington Disaster.

Washington, Aug. 31.—Secretary Bonaparte acted upon the findings of the court of inquiry in the case of the Bennington explosion. He disapproved of so much of the findings as declare that the Bennington was "in an excellent condition" at the time of the explosion, and is particularly severe in his comment upon the failure of the officers to look after the safety valves.

The secretary further says that the court of inquiry's failure to make any finding respecting the captain of the ship, Lucien Young, does not meet his approval, and he therefore declares that to clear himself Capt. Young must appear before a court-martial. Ensign Charles T. Wade, who was in charge of the machinery, is also ordered before a court martial.

CRIMINAL NEGLIGENCE.

Is Alleged Against a New York Contractor.

LEFT OUT ONE WORD

AND IT WILL RESULT IN MUCH DELAY, OR CONSIDERABLE COST.

The Aldermen Decide the Ordinance Must Say "General Council," Instead of "Council."

Leaving out one word in the quarantine ordinance passed twice by the council and office by the aldermen, makes it necessary for it to be passed over again by the council, which will cost \$72 extra for special sessions, or else will result in considerable delay.

In the ordinance passed twice by the councilmanic board, it is stipulated that the "council" shall fix the number and salaries of the quarantine inspectors.

Last night the aldermen decided that "council" was not specific enough, and inserted the word "general," making it "general council," and then passed the ordinance. It is now necessary for the aldermen to pass it again, and for the councilmanic board then to pass it twice again. Either the city must wait for regular meetings for this to be done, two weeks apart, or hold called sessions at \$36 a meeting.

President to Make Renewed Effort for Meeting of Hague Conference

Washington, Aug. 31.—It is regarded here as probable that immediately upon the conclusion and final signature of the treaty of peace between Russia and Japan there will be a renewed effort to secure another meeting of The Hague conference in accordance with President Roosevelt's suggestion to the Powers last spring.

Following the original proposition for a re-assembling of the conference the President sent out a second circular note, notifying the Powers that in his judgment further proceedings in connection with the call should be left to the resident council at The Hague.

The state department has learned since then that nearly all the Powers addressed while accepting the proposition, qualified their acceptance of the proposition, with the statement that the new conference should be deferred until the conclusion of hostilities between Russia and Japan.

Theatrical Notes

Milton and Sargent Aborn's elaborate revival of "The Fortune Teller" opened its season on Monday, August 28 at Newark, N. J., to a crowded and enthusiastic audience. The title role originally played by Alice Neilson, is in the hands of Grace Orr Myers, who proved a happy surprise in this exacting part.

Among the many interesting scenes and situations in "A Thoroughbred Tramp," the new third act, that of the hospital ward is probably the most effective, where in three distinct scenes is shown the reception room, together with the male and female wards with its patients strewn about, and where a poison plot is concocted and exposed to the full satisfaction of the audience. In the first and second acts comedy predominates though the dramatic situations are strong and in the last act much originality is displayed by the author in righting the wrongs of the innocent. "A Thoroughbred Tramp" which has been a continued success since its birth, will be seen at The Kentucky Labor day, matinee and night.

DEPUTY MARSHAL GOT IN ALL RIGHT

Major Saunders Was Held up by Quarantine Officers.

He Showed Them Health Certificate Badge and Commission, But it Took His 44 to Get In.

CAIRO'S TROUBLES MANIFOLD

Deputy United States Marshal G. W. Saunders had an amusing experience in Cairo the other day. He went there in the discharge of his duty, and was stopped outside the city by two guileless looking young quarantine inspectors.

One stood on one side of the major and the other on the other, and the major good naturedly halted and humored them, although the men did not look half as large as they evidently felt.

The major first showed them his health certificate. It wouldn't do, they said.

He looked at them right hard, and pulled out his U. S. badge. It might as well be a tin whistle so far as they were concerned, they said. It wasn't at all the "open sesame" to Cairo.

The major was patient. He then drew from his pocket his commission as a United States officer, and they read it through, handed it back, and said if that was all he had he might as well hike back to Paducah.

But it was not all the major had.

The major is of necessity equal to all emergencies. He played his trump card by pulling his 44 Colts and showing them that. Their eyes began to bulge, for they weren't used to guns of the Kentucky calibre. The major, after he had let them have a good look, informed them that if they didn't run along hewould hand them together and bring them to Kentucky for interfering with a federal officer.

The word "Kentucky" and the memory of that 44, had the desired effect, and the major got in Cairo, and he got in on a Paducah health certificate, too.

Down in Cairo, however, they are still at war with one another. People from the Egyptian city say, it is the first time Cairo was ever good. It's dead. The sheriff and quarantine officers have buried the hatchet, but others are having their troubles. The Bulletin of today says:

"In open defiance of the quarantine regulations of the city of Cairo and the state of Illinois, which is being enforced by the officers of both the city and the state boards of health, Capt. N. B. Thistlewood, for the second time entered Cairo yesterday morning without a permit.

"Action regarding Capt. Thistlewood's open defiance of the law will undoubtedly be taken.

"Dr. George Thomas Palmer, acting secretary of the state board of health, stated to the Bulletin last night that he had nothing to say regarding the matter but added that the people could rest assured that no violation of the quarantine regulations would be allowed to go unnoticed.

"Tuesday Capt. Thistlewood came from his home in Mounds to Cairo. He was asked to show his health permit and loudly asserted that he did not and would not have one and that the quarantine was all a farce. The inspector ordered an officer to take him in charge but in the crowd and excitement that followed, Capt. Thistlewood left and walked up the street in company with Sheriff Roche. The officer, thinking that the sheriff had him in charge did not interfere. "Yesterday morning Capt. Thistle-

wood repeated the performance. Assistant Secretary Palmer was on the scene with Chief of Police Egan. Capt. Thistlewood again defied the quarantine officers and Dr. Palmer asked Chief Egan to take him in charge, but before this could be done several friends interfered and strong talk was indulged in, and seeking to avoid any scene that could not have resulted unpleasantly for all concerned Dr. Palmer ordered the police not to interfere.

This, however, is by no means the end of the trouble and developments of an interesting, if not sensational character, may be safely looked for."

Concerning the trouble with the sheriff the Bulletin says:

"Yesterday afternoon Dr. James A. Egan, secretary of the state board of health, served upon Sheriff James A. Roche an official demand that the sheriff assist in the enforcement of quarantine regulations as provided in the statutes. It is understood that the sheriff on receipt of this formal order, communicated to assistant Secretary Palmer his acquiescence. This terminates the friction and threatened rupture between the state health officers and the sheriff, the sheriff having formally accepted the charge of associating with the state board in every way."

SIX PAIRS OF TWINS.

Reveal an Extraordinary Curse and Its Results.

Allentown, Pa., Aug. 31.—When Mr. and Mrs. Allen C. Deppe, of Hickory Run, at the age of forty years became the parents of twenty-three children, upon the arrival of their sixth pair of twins last week, there was fulfilled an extraordinary curse.

A little more than twenty years ago Mrs. Deppe was Miss Elizabeth Searfass, and was living with her parents, Mr. and Mrs. Timothy Searfass, at Albrightsville. She was engaged to the son of a neighboring farmer when Allen Deppe appeared. After a short acquaintance, lasting only a few weeks, Deppe and Miss Searfass eloped and were married. The bride's parents and the neighbors, with whom Deppe had made himself popular, took the elopement in good part and counted it a joke on the other fellow. The jilted fiancé, however, was terribly disappointed. Instead of congratulating the bride, he uttered an imprecation, wishing she would become the mother of the largest family ever known, including six pairs of twins.

Alleged Gaffer Proves Innocent.
Milwaukee, Wis., Aug. 31.—The Wisconsin rendering company, from whom Charles F. Pfister, the millionaire, was accused of having stolen \$14,000 and for which the grand jury recently indicted him, has confessed judgment to Pfister on \$6,500 notes Pfister held against the company and thereby practically disproved the grand jury charge. Pfister will now go into criminal court and force the district attorney to prosecute him.

MANY QUESTIONS

Are Being Asked Hotel Managers by Mail and Wire.

The local hotels are daily in receipt of many letters from all over the country making inquiries relative to quarantine conditions in this part of Kentucky. Most of the letters are from concerns that have traveling men in this territory.

One firm had engaged sample rooms for its drummer, who was coming on in a few days with a big holiday line of goods. On account of the confusion incident to the quarantines, however, the house today countermanded the order for rooms, and stated that it would not send its man until things became straightened out.

In addition to the strict business inquiries, some of the letters are very foolish, and ask all manner of

silly questions. One would not imagine that there were so many fools in the world until he read a few of such letters.

One woman enclosed a newspaper clipping announcing that Paducah would quarantine against nothing, and then asked if it were true "that Paducah had quarantined against the world."

MUCH STREET WORK HAS BEEN DEFERRED

Most of Kentucky and Jefferson Street Work Next Year.

Board of Works So Decides—Street Cleaning Discussed and Acted Upon.

FEW STREET NAMES BE PUT UP.

The board of public works met in regular session yesterday afternoon with all members present and took definite action on several matters.

One of the most important steps taken was in regard to the street improvement work on Jefferson street and Kentucky avenue. The board decided that only the brick street work be done this year, the bitulithic work being deferred until next spring. This means that residents and property owners on Jefferson from Fifth out and on Kentucky avenue from Fourth out, will not have to pay for this work before next year. The postponement was ordered because of the fact that in cold weather it is hard to put down the bitulithic compound.

The board ordered that the street inspector furnish 400 loads of dirt taken off the streets to be improved, to Riverside hospital and used to grade the yard.

The board also ordered the immediate construction of a concrete sewer on Caldwell street to take the place of the second bridge, which is dilapidated and unsafe. The street car and railroad companies agree to stand a certain part of the expense of material.

The board ordered street numbers placed upon corners within the sewer district. This will entail an expense of about \$400, a cheaper grade of posts to be secured which will mean a curtailment of expense.

Secretary S. A. Fowler reported that he had been in correspondence with a Lexington concern and ordered a machine for placing oil on streets and with the Standard Oil Co. for oil, and will shortly have everything here and try using oil on the streets.

The board ordered one Tiffin dump cart as an experiment. These carts are for a single horse and being light and easily managed, will be an improvement over the present cart, it is thought.

The board also ordered one patent hand street sweeper which takes up the dirt from the street the same as a carpet sweeper. This was ordered for an experiment, with no cost to the city, the firm standing the expense of the trial.

It was also reported that a representative from the Stewart Sewer Cleaning Machine Co., of Boston, will be here shortly to give a demonstration with his machine, which is now at Cairo.

City Engineer L. A. Washington reported on matters referred to him and furnished estimates for work on Third street. The total estimates for work as far as it has gone amounted to \$12,843.92, and was approved.

City Auditor Alex Kirkland reported the results of his trip to the League of American Municipalities at Toledo. He stated that the general inclination all over the country was for each city to clean up its own streets, and gave several illustrations of street cleaning. There is a flush tank wagon with an air pump attachment which is used on improved brick and bitulithic streets and the board will investigate and probably order one for an experiment.

The city solicitor reported several ordinances prepared for presentation to the boards. Among the ordinances is one for the improvement of West Jefferson street from Fourteenth to Twenty-fifth streets by pavements, gutters and curbs.

There were several other matters of minor importance taken up and referred for future action.

PUT OUT CAT'S EYES.

And the Judge Fined Him Fifty Dollars.

Huntington, W. Va., Aug. 31.—Charles Birnhouse was fined \$50 by a magistrate for destroying the right optic of a gray kitten.

The kitten, a favorite pet of little Mollie Rose, was trotting across the sidewalk in front of the Rose home. Birnhouse was passing with a riding whip in his hand. With a stroke of the whip he destroyed the kitten's optic, and the little girl became wild with grief.

Later, on the advice of friends, she went before Humane Officer S. Potts and told her story. He ordered Birnhouse arrested. Birnhouse confessed his guilt.

KENTUCKY NEWSLETS

Call Extended.

Hopkinsville, Ky., Aug. 31.—The Rev. Edward H. Bull has been extended a call to the pastorate of the First Presbyterian church of this city. Rev. Dr. Bull has been serving this church as stated supply for the past year, during which time his work as pastor has been greatly beneficial not only to his own church, but to the city generally. Mr. Bull is at present visiting in Frankfort and New Albany, Ind., and the meeting at which it was decided unanimously to extend to him the call, was held in his absence.

Sewerage System.

Hopkinsville, Ky., Aug. 31.—The work of putting in the sewerage system for this city was begun this week the first real work being the breaking of ground for the erection of the septic tank which will be used. Robertson & Gardner, of Paducah, who secured the contract for putting in the sewers, have arrived in the city with their outfit and will begin work at once. The system will be built and operated by a company composed of local capitalists.

Asylum Trustees Resign.

Louisville, Ky., Aug. 31.—It developed yesterday that Charles P. Dehler and Dr. C. Van der Espt have recently resigned from the board of trustees of the Central Insane asylum at Lakeland. Their resignations were sent to Gov. Beckham about two weeks ago, but their successors have not been appointed. Inability to give the places their time is the cause assigned.

Death in Calloway.

Murray, Ky., Aug. 31.—Mrs. Elizabeth Jane Allen died at the home of her daughter, Mrs. Dollie Curd, in this city. Her death was due to old age. She was in her 81st year. Her maiden name was Alexander. She was born in Maury county, Tenn., but resided in this county most of her life. Her husband, Matthew Allen, who died in 1896, was one of the old settlers of this county. He served his county one term as jailer.

Mrs. Allen is survived by five children, F. C. and J. L. Allen, sons, and Mrs. C. D. Holt, Mrs. Dollie Curd, and Mrs. William Pool, daughters.

Misinterpreted Order.

Louisville, Ky., Aug. 31.—A misinterpreted order issued to agents of the Illinois Central railroad in the quarantine districts had led a number of Louisville merchants to make complaint to the railroad officials. The order as it was understood gave the impression that Louisville had established a quarantine against the infected districts, and this caused a number of buyers from the south to make their purchases in St. Louis instead of Louisville, as they have been doing. Acting immediately, the railroad issued orders correcting the impression created and which they claim cannot be misunderstood.

Editor Accidentally Shot.

Henderson, Ky., Aug. 31.—Edgar A. Jones, editor of the Henderson Journal accidentally shot himself at his residence here yesterday. Mr. Jones was alone at home, his wife and daughter being at Owensboro. At 5 o'clock he heard noises that led him to believe burglars were in the house and he started on a search with a revolver. As he was in a hallway he stumbled and fell, and the pistol was discharged.

The ball entered the left breast at a point near the nipple and penetrated the lung.

Mr. Jones was able to call by telephone for his father-in-law, Dr. Dixon, who lives next door.

He is resting easy, and while his condition is serious it is believed he has a good chance for recovery.

Street Cars for Hoptown.

Hopkinsville, Ky., Aug. 31.—The mysterious visit of two strangers, who stated that they were here for the purpose of putting in a street railway system should proper inducements be offered, has caused considerable interest here. The strangers would not give out anything regarding their plans or what they really

Yucatan Chill Tonic

Perfectly Made IMPROVED Positive Cure

A medicine to produce results must be made right. Tasteless Chill Tonics are not and we will prove it. No two bottles of tasteless tonics have the same amount of medicine, so the dose is uncertain. At least 20 percent of the medicine remains in the bottle. A tasteless tonic cannot usually be retained as it upsets the stomach. More lost action. They are not tasteless, as they dissolve the quinine producing that awful shaking of the bottle. Then, every time a dose is taken that awful shaking of the bottle. Then, the more you take the sicker you get. A medicine that overcomes all these faults is what the people and the profession are looking for. They will find it in Yucatan Chill Tonic. (Imp.) One bottle is worth a dozen of the tasteless kinds. Yucatan is the only tonic that drives the malarial germs out of the system. Wonderful results when used in cases of typhoid and malarial fevers. Physicians who wish to prescribe this tonic under an ethical name will receive valuable information and literature by addressing:

expected to do, but they held a consultation with the city council and several business men and stated to them that they were ready and willing to put in a system of street cars should the citizens second the movement sufficiently and provided a liberal franchise should be granted them. They were assured of the hearty co-operation of the people, and after going over the entire city and suburbs they took their departure with the understanding that they would make another visit in the near future. They would not allow their names to be used publicly in reference to the proposed movement.

Since the men left the city it has developed that for the past several weeks local capitalists have been quietly at work organizing a company for the same purpose and that the company has practically been formed. The promoters of the local company, however, state that they will take no further steps in the matter, neither will they offer any obstacles to the visiting capitalists should they decide to put in the system. This is done for the purpose of securing the investment of foreign capital here. In the event the strangers do not put in the railway system, however, the local men state that they will and Hopkinsville citizens expect to see street cars in operation here within a year.

He has returned from Frankfort, and has been qualified before the county clerk. Judge Jolly is the son of ex-State Senator R. M. Jolly, and is a staunch Republican. He is probably the youngest judge in Kentucky, being only 24 years of age.

Daily Thought.

"Thoughts are heard in heaven."

THE GREATEST MAN OF THE AGE

Had it not been for President

Roosevelt, there would have been no

peace.

The telegrams, cablegrams, and

letters congratulating the president

of the United States on his admirable

feat in bringing about peace between

Russia and Japan are not tokens of

falseness and admiration. All over

the civilized world it is admitted

that had not President Roosevelt stepped

into the breach at the right time and

in the right way, the peace conference

would have been over by this

time, and hostilities renewed.

A Berlin cablegram says:

"President Roosevelt has become

the first figure in international states-

manship—that is what Berlin thinks

of the result of the Portsmouth con-

ference. The foreign office says un-

reservedly that without the Presi-

dent's personal exertions, supported

by his unique position and the power

of the United States, peace would not

have been attained and that Ger-

many and the whole world will bene-

fit by the statesmanship shown by the

Washington government."

This is the tenor of them all, and

needless to say, the president is glad

his efforts were so successful.

The magnitude of the achievement

can hardly be fully realized. Peace

means the salvation of no telling

how many human lives, and the saving

of millions and millions of dol-

lars in money and property.

It is almost incredible that

about the various foci has been thoroughly fumigated and the mosquitoes killed. Yet the pestilence spreads. It appears in some new place every day, and attacks people who for months had had the mosquito theory din into their ears. They had taken pains to exterminate the mosquitoes and to keep killing what few might get through the screens. Yet they contracted the malady, and many of those who live to tell the tale will no doubt be willing to make affidavit that they didn't contract the fever through the medium of a mosquito bite. It is all right to hold that mosquitoes help spread the yellow fever, but to say that yellow fever can be spread only by mosquitoes is stretching it a little too far. It is asking people of this enlightened age to believe too much. Havana has practically wiped out yellow fever, but it was by cleaning up the city, not by killing the mosquitoes. There are just as many mosquitoes there now as ever.

The press teems with accounts of "Japan's magnanimity" in backtracking on the indemnity question. The fact in cold type, though, is probably that Japan was not actuated by any such motives, but was convinced that if she continued the war, which she would have had to do if she had insisted on an indemnity the result might have been entirely different from what Japan and the world expected. It was better to withdraw gracefully with the bouquets than to stay on too long and possibly get licked in the long run. Japan didn't end the war through any regard for humanity, but no doubt because it was pointed out to her as the best policy.

There should be some way to prevail on the general council to extend the sanitary sewerage to the High school building on Broadway. It is badly needed, and has been for several years. If there were nothing along the line of proposed extension except the school, the improvement would still be fully justified, but there are living along the route scores of the best citizens in Paducah, and they want and are entitled to sewerage, and want it badly. It is to be hoped that the city will take immediate steps to extend the sewerage if it has to borrow the money.

MRS. WILHITE

Found Badly Beaten—Her Son Was Arrested.

Mrs. WilHITE, a resident of "Dogtown" was assaulted this morning about 1 o'clock by some unknown person and her head badly beaten, cut and bruised.

The woman was found in her house lying in a pool of blood and in a semi-conscious condition. They carried her to Riverside hospital where the injury was dressed. The police have been able to find out little about the matter, but have arrested Bud Dunn, her son, on suspicion and he is being held pending the investigation.

Dunn also owes the city a fine, it is said, and was arrested on a capias. The woman is better today, but was unable to be at court and the investigation will be held tomorrow.

BUD DALE, Prop.

Suicided Because He Was Fired.
Evansville, Ind., Aug. 31.—John W. Davidson, one of the best known railroad men in this section, committed suicide by shooting himself in the heart. For over forty years he was employed in the Evansville and Terre Haute shops here, and in the recent shake-up was let out, and the matter is thought to have preyed on his mind that he became insane.

A MEETING CALLED OF COMMITTEES

To Decide on Nominating Republican Candidates Here.

Messrs. W. H. Farley and L. B. Ogilvie Were Yesterday Afternoon Appointed Officers.

DEMOCRATIC COMMITTEE MEET

A meeting of the city and county Republican committees has been called for tomorrow night, Sept. 1, for the purpose of deciding on the time and manner of nominating candidates for city and county officers.

It is likely that precinct conventions will be called to take place in about thirty days, and these precinct conventions will elect delegates to the city and county convention, which will make the nominations.

All citizens, irrespective of politics, will probably be invited to participate in the precinct conventions, and assist in putting out a ticket that good men of all parties can consistently vote for in November.

The election commissioners for McCracken county were appointed at Frankfort late yesterday afternoon, and are W. H. Farley, Republican, and L. B. Ogilvie, Democrat.

Both of these are new men. Mr. Farley succeeds his father, Capt. Ed Farley, who has become disqualified by being elected a school trustee, and Mr. Ogilvie, a brother of the Democratic nominee for sheriff, succeeds J. C. Flournoy, the attorney.

The third member of the board is the sheriff. Until a short time ago in counties containing cities of the second class the circuit clerk was the third member of the board, and in all other counties the sheriff. The court of appeals recently decided that this was class legislation, however, and impossible, hence Sheriff Lee Potter, Mr. Ogilvie and Mr. Farley now constitute the election board in McCracken county.

Chairman W. A. Berry has called a meeting of the Democratic county committee for September 9 to take some action in regard to the nominee for coroner of McCracken county. There are several candidates, and the committee will not find it easy matter to decide on how to make another nomination and satisfy the candidates.

SLASHED WRISTS.

Young Man Couldn't Get Into Hospital and Wanted to Die.

Hopkinsville, Ky., Aug. 31.—The passengers on a Tennessee Central train were much interested in a man who was on the train with his wrists bandaged and who attempted suicide at Clarksville. The man gave his name as A. G. Johnson and claimed to be from Dickson, Tenn.

He went to Clarksville and tried to get into a hospital and receive attention. Failing in this he went to a store and asked to be shown a razor and when the clerk handed it to him he walked up front as if to examine it. When he had separated himself from the other people in the store he made two gashes in his wrist in an attempt to sever the artery, but the clerk caught him before the vessel was cut. Johnson begged to be allowed to kill himself, stating that death would be a relief to him.

He was put on the Tennessee Central train and brought to this city last night where he staid until this morning when the authorities sent him to Nashville. He is undoubtedly in poor health, but he is also a morphia fiend, and stated that he had taken fifteen grains of the drug before leaving Clarksville and that he had a similar supply for this morning. Some people who saw him claim the gashes were very slight while others say that they were deep and dangerous looking and that when Johnson saw the blood he thought he was going to die sure enough and he, himself, caught his arm above the wrist and stopped the flow.

A FRIENDLY CHAT BETWEEN THE TWINS

Norway and Sweden to Settle Differences at a Conference.

The Main Question to Be Decided Is As to Fortresses Norway Must Abolish.

THE DELEGATES ARRIVE

Carlsbad, Aug. 31.—The result of the opening of negotiations here today between the Swedish and Norwegian commissioners on the question of dissolution of the union is awaited with intense interest.

The question mostly discussed is as to what fortresses Sweden will call upon Norway to abolish. There is reason to believe these will be the fortresses of Fredricksten, Kongsviger, Orje and Dingsrud, but it is understood that the Norwegians will refuse to abolish those of Fredricksten and Kongsviger.

Norwegian delegates arrived last night, their hands are tied by the decision of the Storting that nothing shall be decided by them without its consent. The Swedish delegates arrived this morning.

Will Hold Conference.

Christiana, Norway, Aug. 31.—The Norwegian commissioners appointed to confer with the commissioners from Sweden on the question of dissolution of the union, left for Carlsbad last evening. All the evening papers express conciliatory sentiment and best wishes for the result of conference.

Referring to the example set by the peace conference at Portsmouth, and urging the commissioners to come to meeting of commissioners will be held at Carlsbad tomorrow.

DR. WM. BAILEY

WAS HEARD BY A CROWD OF 300 OR MORE AT CITY HALL.

Made a Fine and Convincing Talk On the Subject of Yellow Fever.

Dr. William Bailey, of Louisville, a member of the state board of health, arrived in Paducah last evening and addressed a crowd of perhaps 300 people at the city hall on the subject of yellow fever. Dr. Bailey has treated in Havana and other places over 100 cases of yellow fever, and knows a great deal about it. He thinks the germs have to be inoculated in the blood, and is a great believer in the mosquito theory.

Dr. Bailey spoke against a quarantine, either state or local, and argued that quarantines are often ineffective, and always detrimental to a city.

Dr. Bailey is 72 years old and has been a member of the state board of health for about twenty years. He is a good talker, and said the state board had done all in its power and was still doing it, for the good of the state, and also called attention to the fact that the board had recently ordered that no one from infected districts be allowed to come into the state unless he or she had a health certificate.

Those who heard Dr. Bailey agreed that his address was one of the most entertaining and convincing they ever listened to. He returned home on the early train this morning.

RURAL CARRIERS

Will Have Permanent Holidays Except On Christmas.

An order was received in the local postoffice today making the regular holidays permanent for rural carriers. Heretofore the rural carriers have had about every holiday that other government employees have enjoyed, but they had to have an especial order from the department to do it.

Now the department has made the order permanent, except for Christmas. Christmas, for some reason, is not included in the list of regular holidays, but it is supposed that the carriers will have holidays Christmas just the same as other postoffice employees.

WILL GO BACK

WALTER COLEMAN AGREES TO RETURN TO NEW ORLEANS.

On Account of Illness He Was Not Taken to Wickliffe Last Evening.

Walter Coleman, formerly of New Orleans, will be taken back to that city tonight by Detectives R. B. Stubbs and Frank Kenner, of New Orleans, to answer to the charge of box car breaking.

The young man was arrested here several days ago and a requisition secured. Through a technicality the young man was granted a few days longer, the wrong name having been written on the requisition. When the paper was served and Coleman placed under arrest, the detectives started for the train, but were intercepted by officers acting on the advice of attorneys for the young railroader.

Attorney Hal S. Corbett, for the defendant, took out a writ of habeas corpus before Acting County Judge Jesse Young, who ordered the boy before some circuit judge.

Sheriff Potter intended taking him to Wickliffe last night to be tried before Judge Bugg but on account of Coleman's illness, postponed the trip. This morning Coleman agreed to return to New Orleans to stand trial, and a written agreement was signed. The agreement reads that Coleman was arrested here by the detectives and handed over to them after which the writ of habeas corpus was taken out and the prisoner given over to the sheriff. The agreement further reads that the defendant, after these admissions by the detectives, willingly goes in their custody to answer all charges preferred against him in Louisiana. They will leave with Coleman tonight.

NO APPROPRIATION.

Yet for the Eddyville Railway to Prison.

State Prison Commissioner Geo. V. Green, who is in the city visiting his family, says the press has published many erroneous statements about the proposed electric railway from Eddyville to the branch penitentiary about a mile and a half distant, says the Hopkinsville New Era. The commission has no intention of building the road at present. There is no money in the hands of the board available for such a purpose, as any earnings under its management are turned over to the state treasurer and all bills are paid on warrants from the auditor. It is a fact that Mr. Green, acting for the board, has had a survey made and secured estimates on the probable cost of a road and its equipment. He will take these figures before the Kentucky legislature at its next session and ask for an appropriation with which to construct the line. Some of the statements made by the trade journals in reference to the proposed road have been ridiculous. One was that the board was ready to receive bids and that the road would be built before fall. Another located the Eddyville penitentiary one mile and a half from Hopkinsville.

ner's court. He claimed this amount
was due him for services and the

had been closed and the boat was
not indebted to Compton. The claim
was dismissed and the boat allowed

FRUITS OF THE RUSSO-JAPANESE WAR

Following is a succinct statement of the gains and losses of the mikado and the czar in the mighty conflict in the Far East:

What Japan Has Won.

The mikado's empire has secured a place among the great powers of the world.

Japan has wrested from Russia the control of the Liao Tung peninsula, including Port Arthur, Dalian and the Blonde and Elliott islands, thus at one stroke getting revenge for the past indignities, and what, to her, are the prime fruits of victory.

By Japan's victories the empire has forced Russia to consent to the open door for all nations in Manchuria.

A "preponderant influence" in Korea has been secured, an influence which admits the right of Japan to give military and financial advice to the emperor of Korea.

Japan obtains the retrocession to China of the Eastern railroad, which runs south from Harbin to Port Arthur, a change of control which will aid Japan in a financial sense.

Japan has forced the limitation of the Chinese concession of 1896, under which the "cutoff" through northern Manchuria was built to connect the trans-Siberian and the Ussuri railroad, so as to provide for the retention and ownership of the line by the Chinese Eastern.

The Japanese treasury is to receive a liberal sum in payment for the care of Russian prisoners.

Japan's fishermen secure the right to ply their trade in the waters of the Russian littoral from Vladivostok, north to the Bering sea.

What Russia Has Lost.

Russia has lost its position as a ranking naval power. Its fleet in the Pacific is cut to pieces and its great Baltic fleet has been destroyed.

Russia has been routed from the Liao Tung Peninsula, from Dalian, the Blonde and Elliott islands, and from Port Arthur, the great harbor fortress, whose strength and position gave the czar a position of dominance in Eastern affairs.

The southern half of Saghalien island is lost to Russia, an island over which a few weeks ago she had full sway and ownership.

Russia has been compelled, by force of Japanese arms, to consent that all nations shall have full trade facilities in Manchuria, a privilege which she formerly jealously withheld.

ALDERMEN, TOO

PASS ORDINANCE PROVIDING FOR A QUARANTINE.

Street Car, Light and Power Franchise Ordinances Also Passed.

The board of aldermen met in called session last night and gave first passage to the ordinance empowering the general council to declare a quarantine whenever one is deemed necessary. The council has passed the ordinance and only one other passage is now necessary by the aldermen before the ordinance, by the signature of the mayor, becomes a law.

The aldermen ratified the action of the board of health in cleaning up premises at the expense of the city when citizens refused to do it themselves.

The two franchise ordinances for the street car company were given first passage. The ordinances confer no additional privileges and arrange for the expiration of the franchises at the same time as at present. The only object in passing the ordinances is to make the franchises separate instead of both in one.

WITNESSES ARRESTED.

And Taken to Cadiz, Ky., On Attachment.

Sheriff Dave Reeves, of Benton, Marshall county, passed through Paducah last night en route home from Cadiz, where he delivered two attached witnesses from Palma, Marshall county. The witnesses were Mr. and Mrs. George Downs and they failed to show up at the right time, to testify in the Lawrence Willis murder trial when it was called last night.

vilage which she formerly jealously withheld.

The czar's government refused before the war to recognize any right of Japan to seek influence and trade in Korea. As a result of the war, Japan is given a preponderant influence in the Hermit Kingdom with full power to advise the emperor on all matters pertaining to commerce and to war.

Russia has recognized Chinese ownership in the Eastern railroad connecting Port Arthur with Harbin. This involves a retrocession to China by Russia of property rights and gives to Japan an opportunity to recoup her finances.

The czar loses all influence in Manchuria, a province which his government was absorbing.

Facts About Sakhalin.

Sakhalin, on the division of which Japan and Russia have agreed is an island nearly 700 miles long, but of narrow dimensions, stretching from La Perouse strait northward along the coast of Siberia. It has an area of 28,000 square miles. The sky over the island is almost always clouded.

In forests and coal, Sakhalin is very rich. There also are large deposits of petroleum; in fact, the oil regions are said to be richer than those of America and some of the subterranean petroleum lakes are reported to be 5,000 square feet in area.

But the chief wealth of the island is the fisheries. The rivers teem with salmon and the waters along the coast with herring. The average fish output of the island yearly is in the neighborhood of \$1,500,000, and this with the industry hardly half developed. The expectation is that when the Japanese take control of the fishing industries of Sakhalin it may become a rival to those of Newfoundland.

From another point of view the fish industry is vital to the life of Japan. It becomes a question of no fish, no rice, no Japs. Every year Sakhalin sends about \$1,000,000 worth of herring to be used as fertilizer on the Japanese rice fields.

The population of the island is fewer than 30,000, including about 5,000 convicts, 6,000 exiles and 2,000 released convicts. The native population consists of 2,000 Gilyaks, who inhabit the northern part and about 2,600 Ainors, the aborigines of the island.

An attachment was issued from Cadiz, the couple arrested, and taken to Cadiz. The Willis case will be called next Tuesday.

A Wife's Health

How many homes contain wives with broken health, feeble constitutions, shattered nerves, physical wrecks of their former selves, and how bitter the disappointment to both husband and wife to experience such a state of affairs instead of enjoying the happiness and sunshine of the ideal home. The cause of this gloomy contrast is usually traced to those distressing troubles and complaints known as female diseases, those peculiar weaknesses in the organs of generation so common to women.

MAGNOLIA BLOSSOM

Women's Favorite Remedy.

Strengthens these delicate organs and gives women perfect health, and if given a fair trial it insures freedom from leucorrhoea, falling of the womb, painful periods and all other weaknesses peculiar to women. It is a simple home treatment that enables women to treat themselves and effects a cure without taking strong drugs and nostrums into the stomach, which so often impair and ruin digestion.

Ask your druggist for MAGNOLIA BLOSSOM, one dollar for a box containing one month's treatment. Write to the SOUTH BEND REMEDY CO., South Bend, Ind., their book entitled "A Book for Women," sent free to any address. The Vicksburg Herald says the fleet now laid up at Centennial Lake is a large one, including steam craft and shanty boats. Among the boats there are the City of Wheeling, American, Vernis Mae, Modoc, Addie T., Thos. B. Florence, Scioto and sundry barges, and the aggregate value of the property is considerable. It is most regrettable to see so much good floating property lying idle, as no matter if boats are laid up insurance and other expenses go on, as long as they are afloat.

The Return of SHERLOCK HOLMES

By A. CONAN DOYLE

Author of "The Adventures of Sherlock Holmes" "The Hound of the Baskervilles," "The Sign of the Four," "A Study in Scarlet," etc.

ILLUSTRATED BY P. D. STEELE

The Adventure of the Abbey Grange

No. 12 of the Series

(Copyright, 1904, by A. Conan Doyle and Collier's Weekly.) (Copyright, 1905, by McClure, Phillips & Co.)

It was on a bitterly cold and frosty morning toward the end of the winter of '97 that I was awakened by a tugging at my shoulder. It was Holmes. The candle in his hand shone upon his eager, stooping face and told me at a glance that something was amiss.

"Come, Watson; come!" he cried. "The game is afoot. Not a word! Into your clothes and come!"

Ten minutes later we were both in a cab and rattling through the silent streets on our way to Charing Cross station. The first faint winter's dawn was beginning to appear, and we could dimly see the occasional figure of an early workman as he passed us, blurred and indistinct in the opalescent London reek. Holmes nestled in silence into his heavy coat, and I was glad to do the same, for the air was most bitter, and neither of us had broken our fast.

It was not until we had consumed some hot tea at the station and taken our places in the Kentish train that we were sufficiently thawed, he to speak and I to listen. Holmes drew a note from his pocket and read it aloud:

Abbey Grange, Marsham, Kent.

My Dear Mr. Holmes—I am very glad of your immediate assistance in what promises to be a most remarkable case. It is something quite in your line. Except for the lady, I will see that everything is kept exactly as I have found it, but I beg you not to lose an instant, as it is difficult to leave Sir Eustace there. Yours faithfully,

STANLEY HOPKINS.

"Hopkins has called me in seven times, and on each occasion his summons has been entirely justified," said Holmes. "I fancy that every one of his cases has found its way into your collection, and I must admit, Watson, that you have some power of selection, which atones for much which I deplore in your narratives. Your fast habit of looking at everything from the point of view of a story instead of as a scientific exercise has ruined what might have been an instructive and even classical series of demonstrations. You slur over work of the utmost fineness and delicacy in order to dwell upon sensational details which may excite but cannot possibly instruct the reader."

"Why do you not write them yourself?" I said, with some bitterness.

"I will, my dear Watson, I will. At present I am, as you know, fairly busy, but I propose to devote my declining years to the composition of a textbook which shall focus the whole art of detection into one volume. Our present research appears to be a case of murder."

"You think this Sir Eustace is dead, then?"

"I should say so. Hopkins' writing shows considerable agitation, and he is not an emotional man. Yes, I gather there has been violence and that the body is left for our inspection. A mere suicide would not have caused him to send for me. As to the release of the lady, it would appear that she has been locked in her room during the tragedy. We are moving in high life, Watson—crackling paper, 'E. B.' monogram, coat of arms, picturesque address. I think that Friend Hopkins will live up to his reputation and that we shall have an interesting morning. The crime was committed before 12 last night."

"How can you possibly tell?"

"By an inspection of the trains and by reckoning the time. The local police had to be called in; they had to communicate with Scotland Yard; Hopkins had to go out, and he in turn had to send for me. All that makes a fair night's work. Well, here we are at Chislehurst station, and we shall soon set our doubts at rest."

A drive of a couple of miles through narrow country lanes brought us to a park gate, which was opened for us by an old lodge keeper, whose haggard face bore the reflection of some great disaster. The avenue ran through a noble park between lines of ancient elms, and ended in a low, widespread house pillared in front after the fashion of Palladio. The central part was evidently of a great age and shrouded in ivy, but the large windows showed that modern changes had been carried out, and one wing of the house appeared to be entirely new. The youthful figure and alert, eager face of Inspector Stanley Hopkins confronted us in the open doorway.

"I'm very glad you have come, Mr. Holmes, and you, too, Dr. Watson. But, indeed, if I had my time over again I should not have troubled you, for since the lady has come to herself she has given so clear an account of the affair that there is not much left for us to do. You remember that Lewisham gang of burglars?"

"What, the three Randalls?"

Copyright by Collier's Weekly.

THE LADY LAY BACK EXHAUSTED UPON A COUCH.

"Exactly; the father and two sons it's their work. I have not a doubt of it. They did a job at Sydenham a fortnight ago and were seen and described. Rather cool to do another so soon and so near, but it is they beyond all doubt. It's a hanging matter this time."

"Sir Eustace is dead, then?"

"Yes; his head was knocked in with his own poker."

"Sir Eustace Brackenstall, the driver tells me."

"Exactly; one of the richest men in Kent. Lady Brackenstall is in the morning room. Poor lady, she has had a most dreadful experience. She seemed half dead when I saw her first. I think you had best see her and hear her account of the facts. Then we will examine the dining room together."

Lady Brackenstall was no ordinary person. Seldom have I seen so graceful a figure, so womanly a presence, and so beautiful a face. She was a blond, golden haired, blue eyed, and

would no doubt have had the perfect complexion which goes with such coloring had not her recent experience left her drawn and haggard. Her sufferings were physical as well as mental, for over one eye rose a hideous, plum colored swelling, which her maid, a tall, austere woman, was bathing assiduously with vinegar and water. The lady lay back exhausted upon a couch, but her quick observant gaze as we entered the room and the alert expression of her beautiful features showed that neither her wits nor her courage had been shaken by her terrible experience. She was enveloped in a loose dressing gown of blue and silver, but a black sequin covered dinner dress was hung upon the couch beside

GOV. BECKHAM
Lost His Templar Watch Fob at Louisville, But Transfer Man Found It.

Governor Beckham returned yesterday morning from Paducah, where he attended the state guard encampment, says the Frankfort State-Journal. He was much pleased with the success of the camp and loud in his praise of Paducah.

The Times says of his stop-over in Louisville:

Governor J. C. W. Beckham, who has been at Paducah for the past week attending the encampment of the state troops at that place, arrived in Louisville over the Illinois Central railroad at 7 o'clock this morning and left a few minutes later for Frankfort.

While getting his baggage rechecked at the Seventh street depot the governor lost his handsome gold maltese cross watch fob, which is set with diamonds. He did not miss it until it was handed to him. George Osterag, agent for the Louisville Transfer company at the depot, passed through the baggage room shortly after the governor went out to board his train. The governor's name was engraved on the back of it, and Osterag hastened to restore the fob Governor Beckham was, of course, grateful for the return of the jewel and made due expression.

ADJUSTORS WORKING.

On the Losses of Last Week's Big Tobacco Fire.

Several adjustors arrived in Paducah this morning to adjust the losses in the Farmer and Graham tobacco warehouse fire of last week.

The tobacco has about been straightened out and all that can be used is being carted away. The leaf is not really so badly damaged as first thought, and a great deal can be used for making snuff.

The American Snuff Co., of which Mr. Oscar Hank is the local buyer, has arranged to settle its loss in full. The Farmer Co. and Graham Co. and other dealers who lost in the fire, will be subjected to an adjustment.

The adjustors will probably be busy for several days working on the job and definite results are not expected before tomorrow.

RHEUMATISM

Lawrence Hanley's Funeral. Los Angeles, Cal., Aug. 31.—The body of Lawrence Hanley will be shipped to Savannah, Ga. Hanley was a delinquent member of the Elks and the local lodge and Catholic members will aid. As he realized the approach of death, Hanley asked for a watch presented by St. Louis admirers years ago and for a rosary given him by Father Roberts of the Passionists, Normandy, Mo., and blessed by Pope Pius IX. He clasped them to his bosom until death. The watch was engraved: "To Lawrence Hanley, for being a good boy; God bless him." This was given him by friends shortly after he left a hospital in St. Louis as cured of drug and liquor habits.

When pains or irritation exist on any part of the body, the application of Ballard's Snow Liniment gives prompt relief. E. W. Sullivan, Prop. Sullivan House, El Reno, O. T., writes, June 6, 1902: "I take pleasure in recommending Ballard's Snow Liniment to all who are afflicted with rheumatism. It is the only remedy I have found that gives immediate relief." 25c, 50c and \$1.00 at Alvey & List, and G. C. C. Kolb's drug stores.

It is reported that a movement is on foot to organize a "municipal league" in Paducah, the object of which will be to "work for the interests of the people," and secure cheaper service from public utilities, etc. It is not known who is back of the movement, but thus far nothing definite has been done. Members are to be secured by sending around blanks to be filled out and signed.

Scientists All Had Very Good Luck.

Many Photographs Taken in Various Parts of the World of the Phenomenon.

AMERICANS WERE SUCCESSFUL

Assuan, Egypt, Aug. 31.—The Am-Hussey of the Lick observatory, carried out its complete program. It obtained eight plates with forty foot lens, eight plates which were exposed for intramercutal planet with composite battery of four telescopes and one plate of the general coronal spectrum.

Americans Successful.
Tripoli, Aug. 31.—The American, Italian and French expeditions observed the eclipse here in clear atmosphere. It lasted three minutes, four seconds. Shadow bands were particularly clear, beginning ten minutes before totality. Bailey's beads were not seen. The corona was evidently developed. Prof. Todd, of Amherst college, head of the American expedition, took numerous photographs.

Favorable Conditions.
Paris, Aug. 31.—The eclipse of the sun was observed here under the most favorable conditions. Dispatches from Burgos, Spain, report excellent results obtained by all the scientific expeditions. Astronomers gathered in various districts of Tunis and successfully carried out experiments establishing valuable astronomical data.

Took Eighteen Photographs.
Williams Bay, Wis., Aug. 31.—A clear sky greeted Prof. E. B. Frost, director of Yerkes observatory, and his assistants, at Williams Bay when the observations were made of the solar eclipse. Eighteen photographs were taken.

JURY HUNG

UNABLE TO REACH AN AGREEMENT—ONE MAN HANGING IT.

The Expected Death Sentence in the Fletcher Case Did Not Materialize.

Russellville, Aug. 31.—At 1:30 o'clock the jury is still out in the Fletcher case and seems hopelessly hanged.

There is an ominous mumbling among the crowd in the court-room, and on the outside, and it is known that one man is hanging the jury. It would not be surprising were the mob to make an effort to get him.

Only a handful of troops are on duty. Sacra and Lyons were taken to the Bowling Green jail last night.

TOO BAD.

American Consul Didn't Show Proper Respect for King.

Washington, Aug. 31.—The state department has been supplied with newspapers published in Gothenburg, Sweden, attacking the American consul there, Robert S. S. Bergh, because of alleged failure on his part to show proper respect for King Oscar, on the occasion of his birthday anniversary.

The Aftonblad one of these newspapers, charges that the flags of their countries were hoisted in every foreign consulate in the town except by Mr. Bergh. This caused much remark and speculation on the part of the townspeople, who inquired whether King Oscar had in any way offended President Roosevelt that he had ordered his consul to refrain from joining in the celebration.

The paper calls attention to the fact that Mr. Bergh is a Norwegian by birth, but does not think he is thereby excused, in view of the position he occupies. Assistant Secretary Loomis has decided to call upon Mr. Bergh for an explanation.

Y. & M. V. OFFICE.

One Department to Be Moved From Memphis to Chicago.

Memphis, Tenn., Aug. 31.—Vice President John C. Welling, chief of the accounting and treasury departments of the Illinois Central, spent yesterday in the city and gave out the information that the land office of the Yazoo and Mississippi Valley road, at the head of which has been Chief Clerk Charles B. Wintersmith, with offices in the Rogers building, of this city, will be at once removed to Chicago and consolidated with the office of the land commissioner and right of way agent, Edward P. Skene. Mr. Wintersmith retains his position, but goes with the office to Chicago.

As a matter of fact, the lands of the Yazoo and Mississippi Valley road, comprising about 750,000 acres in the Delta, have been disposed of almost entirely, and nothing remains for this branch of the office but collections on deferred payments, adjustment of disputed claims, etc., all of which can be handled as effectively, if not more effectively, from the Chicago office.

This was the original land office of the Southern lines of the Illinois Central.

Detectives Maher and Sexton are now searching for Welter, who was arrested as a suspect, but released on a small bond.

Circus Men Stranded.

Washington, Aug. 31.—Two hundred Americans, members of the Maccaddons circus troupe, are stranded in France, without food or shelter, money or transportation back to the United States. The circus has failed, and is in the hands of a receiver. The members of the show are demanding their money. The receiver has offered them each transportation to London and 20 francs, or about \$4. According to the information at the state department, which came by cable from France today, the employees of the show refuse to compromise with the receiver. In the meantime, their chances of starving are considered excellent. An appeal has been made through the consular service for government aid from Washington, but there is nothing that the government can do, there being no fund for the aid of stranded Americans abroad.

WRITTEN AT RANDOM.

A prominent local business man who recently sold out his business was the center of much amusement to his wife and several friends last Saturday night.

For the past several years he had stuck to his business so close that he never went to town at nights. After selling out his business he settled down for a few days' rest and last Saturday night his wife asked him to take her down town.

When they dropped into a dry goods store where Saturday night concerts are held and heard the orchestra, he remarked that his wife must be mistaken—that something unusual was in town or there would be no occasion for the music and so many people on the streets.

Finally they left the store and after a short walk turned to go home. About this time a well known young giant of the city, who stands seven feet in his socks, came along. "Now just look at that, will you?" the husband excitedly exclaimed. "I told you there was a circus or a show of some kind in town, because here comes one of 'em."

There is still another policeman who formed a similar habit of striking people about the hip pocket with his club, and he spoiled a suit of clothes for a well known young man and caused him to lose a trip to Louisville one night all because of it.

The young man had dressed carefully in a light suit and carried no baggage except a pint bottle of whiskey in his hip pocket. When the depot was reached he met the policeman, who inquired where he was going. They held a short conversation and when the train pulled in and the young man started to board it the officer carelessly struck his hip pocket with his club—a sort of parting love lick.

There was a crashing sound and the young man turned and looked about in astonishment. He felt for his bottle, but too late, it had been shattered and the contents had run down his pants and completely ruined them for the time being. His clothes smelled so strong of the liquor that he had to abandon the trip.

STILL SORE.

Mayor Woodward's Denials Have Not Placated Atlanta.

Atlanta, Ga., Aug. 31.—Mayor Woodward has returned from Toledo where he attacked Mayor Dunne, of Chicago. Mr. Woodward was somewhat the worse for wear and was suffering from a heavy cold, which he says he caught on the train. He denied that he was drunk in Toledo. He declared his speech was indorsed by some of its best-known citizens, who came to him and complimented him.

Despite the mayor's denial of drunkenness, the delegates who accompanied him declare he was drinking, and that his conduct lost Atlanta the convention of the Municipalities' League. They tell of having begged the mayor not to attempt to speak, and of leaving the hall rather than to witness the spectacle.
